EXCLUSIVE

A CITY, A STORY BY MELIÁ CUBA

Meliá Hotels International Cuba began 2018 with establishments in the most important heritage cities on the island. Our new hotels in Cienfuegos and Camagüey have been added to the ones we already run in the country's capital, Havana, and in Santiago de Cuba. By consolidating our presence throughout the country, Meliá Cuba can now invite guests to try new experiences away from the stunning beaches and breath-taking natural settings that make Cuba a stand-out destination in the Caribbean.

The Exclusive Meliá Cuba Tours include new routes and engaging local experiences so that visitors can discover the architectural, historical and heritage assets of these attractions first-hand. But above all our guests will have a chance to connect with the island's people, their values and rich spirituality on a different level by immersing themselves in a variety of traditions that make Cubans so authentic and diverse.
